

This man creates new designs for electronic systems....

**... this means
that he is a
potential
buyer of
parts
CAD/CAE
test gear
and
equipment,**

and that his needs evolve

Dave Buttmer, Chief Design Engineer of Electromatic, Pietermaritzburg, twice SAFTO Exporter of the Year and State Export Award winner. He was responsible for designing the Shell Design Award-winning track rolling stock and vehicle identification system and the company's standard lines of vehicle detectors, automatic parking garage electronics, and transport management systems.
